- ❖ Greenland

Fun activities we will be doing:

- ❖ Bubble painting
- ❖ Canada Day windsocks
- ❖ Make your own sombrero
- ❖ Make your own pinata & maracas
- ❖ Hot & Cold balloon science experiment

PS/KG Prep

The Week Ahead

We are leaving the United States this week! The students will start off with two days in Canada, make their way to Mexico where we will spend two more days, and finish off the week by landing in Greenland. There is so much to learn about these places, everyone is so excited to begin this journey!

Making our very own playdough with corn starch!

Units of measurement using dandelions the students found outside (left); Our "posters of the world" wall.

The students are thrilled to finally be traveling outside of the United States! Their journey begins in Ontario where they will get to explore Niagara Falls and the official flower, the Trillium. Next we leave for Quebec, where the children will learn about Snowy Owls and investigate Montgomery Falls. On Wednesday and Thursday it's time fly off to Mexico! The students will learn some Spanish vocabulary and tradition songs/dances. They will also have the chance to try on their own Sombreros and taste test food from Mexico. We will finish off the week by flying off to Greenland, where everyone can discover the unique arctic climate and animals, learn about the Danish Krone, and even explore some Viking ruins!
